EDUCATION

University of Wyoming Ph.D. Economics Advisors: Todd L. Cherry (chair), Linda Thunström (co-chair)	Aug. 2021 – May 2026
University of Wyoming M.S. Economics	Aug. 2021 – May 2023
University of Utah B.S. Economics, Political Science	Aug. 2016 – Dec. 2020

HONORS AND AWARDS

Attilio and Hedy Bedont Outstanding Graduate Student, College of Business, University of Wyoming (2025)
William E. Morgan Outstanding Economics Graduate Student, University of Wyoming (2025)
Outstanding PhD Student Research Award, Dept of Economics, University of Wyoming (2024)
Shelby Gerking Graduate Student Award, Dept of Economics, University of Wyoming (2023)

RESEARCH EXPERIENCE

Research Assistant , University of Wyoming Examining Recency of 2024 Wildfire Season Exposures as an Antidote to the Intangibility of Public Policy Dilemmas; National Science Foundation-RAPID; \$181,696.	Aug. 2024 – Present
Graduate Fellow Property and Environment Research Center (PERC), Bozeman MT	Jun. 2025 – Aug. 2025
Research Assistant , University of Wyoming Anticipating the Climate-Water Transition and Cascading Challenges to Socio-Environmental Systems in America's Headwaters; National Science Foundation-EPSCOR; \$20,000,000.	Aug. 2022 – Jul. 2024
Undergraduate Researcher , University of Utah Sorenson Impact Center; Project DEEP (Developing Equitable Economies Program); U.S. Economic Development Administration; \$1,200,999.	Jan. 2020 – Aug. 2021

PAPERS AND PUBLICATIONS

Job Market Paper:

Brimley, P.; Cherry, T.L.; Hochard, J.; Leonard, B. (2025) The preparedness paradox: Disaster exposure and collective risk reduction. In preparation.

This study examines how the preparedness paradox—where successful prevention appears ineffective because avoided damages are unobservable—affects policy perceptions. We hypothesize that communities exposed to both wildfires and prior treatments may perceive prevention as less effective, reducing future support. Combining geospatial information about wildfire events and management with primary data from a national survey, we directly measure public perceptions of federal prevention effectiveness, a critical but understudied component of wildfire policy.

Brimley, P.; Cherry, T. L.; Whitehead, J. Using stated-preference modeling to estimate demand for species-specific wildlife recreation in Grand Teton National Park. University of Wyoming-Colorado State University Graduate Student Symposium, April 2023. Section speaker.

TEACHING EXPERIENCE

Teaching Assistant, Department of Economics, University of Wyoming

Duties: classroom instruction, office hours, grading, and managing online platform

Intermediate Microeconomics Fall 2024

Behavioral Economics Fall 2024

Intermediate Microeconomics Spring 2022

Evolution of Economics Ideas Fall 2021

Teaching Assistant, Department of Economics, University of Utah

Duties: classroom instruction, office hours, grading, and managing online platform

Introduction to Heath Economics Spring 2021

TECHNICAL SKILLS

R, STATA, & MATLAB (*Highly proficient*)

ERDAS Imagine (*Moderately proficient*)
